

The oral exam will be held online in a conference room\* created on the BigBlueButton conference platform.

*\* Room is a virtual space for the the examination process activities.*

The link to the conference room, the day and time of start, a guide for the oral test, as well as the table with the schedule of candidates per hour can be found below for each master's program.

The connection to the online session of the exam will be made with one of the Google Chrome or Firefox browsers.

To connect to the conference room please use a computer with a microphone and webcam (it is not recommended to use a mobile phone). The microphone and camera will be ready to be activated before entering the conference room.

Candidates are asked to access the link for the oral test room at least 20 minutes before the scheduled time. In this way the candidate will enter the waiting room, and will be admitted to the conference as soon as the previous candidate has completed the interview.

When accessing the links for the conference room, the candidates will fill in their name and surname and will click on the Start button.

When accessing the link to enter the room for the oral test, you will enter a waiting room. Entry into the examination room will approved by the moderator as soon as the previous candidate completed the oral test.

*The message "Please wait for a moderator to approve you joining the meeting" will appear on the screen. If the waiting time is too long, the message will disappear and a Refresh will be made to the web page to display it again.*

Upon entering the oral exam room you will activate the microphone and the webcam and you will identify yourself by presenting in front of the webcam the identity card used to register to the admission contest. The oral test will take place according to the guide presented below for each master program.

Early testing of access conditions is recommended; you have at your disposal a conference room for tests, different from the one for the oral test, which you can use by accessing a link indicated to each master program. The test chamber is permanently open. On 10.09.2020 between 17:00 and 19:00 the secretaries of the commissions will be at your disposal to guide you in testing your connectivity.
